

Description

Founded in 2017, Furry Land is the #1 mobile pet groomer in America, providing professional service and loving care for cats and dogs directly at the doorstep of customers across 16 U.S. states. Local pet owners can rely on Furry Land to maintain the coat and skin of their pet, and optimize the pet's overall wellness with a focus on exceptional service and loving care. The company has been growing steadily, and there are currently 70 locations operating or under development nationwide.

Mobile Grooming

The benefits of mobile grooming include: convenience for owners, reduced stress for pets, and it promotes hygiene routinely – preventing fleas, ticks, and shedding. A mobile grooming experience is a one-on-one treatment without exposure to other animals in a clean, cage-free environment. The service, too, is quicker for a highly efficient experience.

Services

The ASPCA recommends regularly brushing a pet's coat and fur, washing their skin, and cleaning their eyes, teeth, nails, and coat to maintain cleanliness and avoid skin irritation. Furry Land groomers brush, bathe, shampoo and condition, towel dry (face), blow dry (body), de-shed, clip and cut hair, clean eyes and ears, and trim nails. Clients may add-on services, such as mat removal, a fresh breath treatment, and a doggy facial. Also, pet supplies are available for delivery at the time of grooming service. Cost depends on the size of the animal and selected services.

Service Areas

Furry Land is expanding across the country with locations in markets such as Phoenix, Colorado Springs, Atlanta, Orlando and Greenville-Spartanburg. A full list is available on the company's website. More information can be found at www.furryland.us, and for franchising opportunities, visit www.furryland.us/franchise.
